

INSTALLATION CONVEYOR BELT

Industry:

Iron Ore

Location:

Western Australia

Staffing Requirements:

1 Project Manager,
4 Supervisors,
12 Belt Technicians

Man Hours:

15,000

Safety Stats:

Zero Injuries

Scope of Work:

Installation of 34,000m of 1,500mm wide steel cord conveyor belt across three conveyors complete with 83 belt splices.

Outcomes:

The successful completion of this job hinged on our ability to mobilise four work crews and two sets of equipment, allowing multiple conveyors to be installed in tandem. The project was completed ahead of time and under budget with zero quality, safety or environmental issues.
