

✓ H TUNGSTEN BELT CLEANER

The range of ConvaTech belt cleaners are guaranteed to reduce carry-back, safety hazards and environmental impact along the conveyor. The H tungsten cleaners are top performing primary belt cleaners that handle abrasive materials and operate at high speeds. The high abrasion resistant tungsten is the perfect option for spliced conveyor belts. All carry-back removed by the belt cleaner is retained within the chute and ultimately becomes saleable product.

Application

Installed at the head end or discharge point of any conveyor belt.
 Suitable for single or bi-directional conveyors.
 Suitable for use on vulcanised conveyor belts.

-  Proven Performance
-  Quality Product
-  Flexibility in Design
-  On-time Delivery
-  Australian Owned

FEATURES	BENEFITS
Removes majority of product fines, approximately 80%	= Improves performance of secondary cleaners = Product fines returned to the product flow, maximising revenue
Manufactured from high grade stainless steel	= Increases longevity in structural components
Manufactured in either standard, heavy duty or super pole configuration	= Allows the duty of the cleaner to be matched to the size and speed of the conveyor
Supplied with bolt-on tungsten tips	= Allows alignment of cleaning elements to deliver optimum performance = Increases life expectancy of tungsten tip = Minimises maintenance costs
Choice of high grade tungsten tip thickness	= Increases life expectancy of tungsten tip = Minimises maintenance costs = Optimises performance
Our components are interchangeable with most brands	= Cost savings achieved without the need to replace the cleaner
Our components are manufactured from castings with smooth rounded edges	= Ensures uniformity of product = Consistent accuracy of product improves serviceability = Reduces exposure to potential hand injuries
