

SPRAY BAR WITH CLAMP BLOCK MOUNT

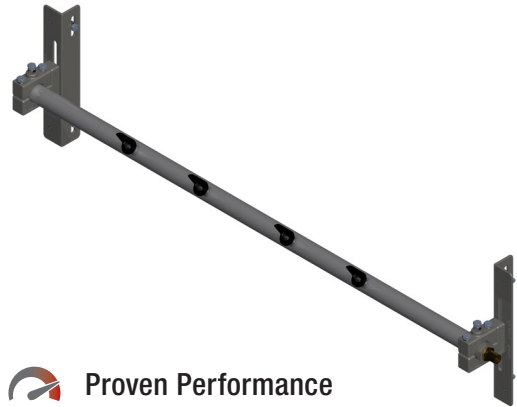

The range of market leading ConvaTech spray bars provides a cost effective solution when upgrading a dry cleaning system to a high performing wet cleaning system.

The spray bar plays an integral part in the reduction of carry back reducing safety hazards and environmental impact around the conveyor. A wet cleaning system operated by our water control manifold ensures the cleaners are performing at the optimum level, thus reducing wear to the conveyor belt, return rollers and pulley lagging.

Balancing cost effectiveness with long life functionality makes this the ideal choice for your application.
