

DIAGONAL PLOUGH

The range of ConvaTech ploughs is proven to protect and increase the life of your capital assets including pulleys and conveyor belt. This is achieved by removing displaced material on the return side of the conveyor belt prior to entering the pulley. It also improves tracking by reducing build-up on the pulley.

Balancing cost effectiveness with long life functionality makes this the ideal choice for your application.

Application

Prior to drive, bend, take-up and tail pulleys on single direction conveyors only.

-  Proven Performance
-  Quality Product
-  Flexibility in Design
-  On-time Delivery
-  Australian Owned

FEATURES	BENEFITS
Manufactured from high grade stainless steel	= Improves structural integrity and longevity
Flexible installation	= Displaced material can be removed to either left or right hand side. This enables safer access for cleaning = Can be adjusted to suit any stringer width
Heavy duty design	= Suitable for all applications
Blades are interchangeable with most brands	= Cost savings achieved without the need to replace the plough
Ability to supply blades with different wear characteristics to suit your specific applications	= Increases life expectancy of polyurethane blades = Optimises performance due to correct blade selection

**Available with deflector for extreme conditions*

Item Code Natural Blades	Item Code FRAS Blades	Description	Frame Length (mm)	Overall Blade Width (mm)	Weight (kg)
20-12-001	20-13-001	Plough H/Duty Diagonal 0600 to 0750	1150	1148	55.1
20-12-002	20-13-002	Plough H/Duty Diagonal 0900 to 1050	1650	1648	60
