

REVERSING PLOUGH

The range of ConvaTech ploughs are proven to protect and increase the life of your capital assets including pulleys and conveyor belt. This is achieved by removing displaced material on the return side of the conveyor belt prior to entering the pulley. It also improves tracking by reducing build-up on the pulley.

The reversing plough balances cost effectiveness with long life functionality makes it the ideal choice for your application.

Application

For use on bi-directional conveyor belts.
