

XHD BELT CLEANER

The range of ConvaTech belt cleaners are guaranteed to reduce carry-back, safety hazards and environmental impact along the conveyor. The XHD polyurethane cleaners are top performing primary belt cleaners that handle abrasive materials and operate at high speeds. The high-grade polyurethane is the perfect option for conveyors with mechanical fasteners or where cover damage or repairs preclude the use of tungsten tips.

Balancing cost effectiveness with long life functionality makes this the ideal choice for your application.

Application

Installed at the head end or discharge point of any conveyor belt.

Suitable to single or bi-directional conveyors.

Suitable for use on vulcanised conveyor belts only.

-  Proven Performance
-  Quality Product
-  Flexibility in Design
-  On-time Delivery
-  Australian Owned

FEATURES	BENEFITS
Removes majority of fines, approximately 80%	<ul style="list-style-type: none"> = Improves performance of secondary cleaners = Fines returned to the product flow, maximising revenue
Manufactured from high grade stainless steel	= Increases longevity in structural components
Manufactured in either standard, heavy duty or super pole configuration	= Allows the duty of the cleaner to be matched to the size and speed of the conveyor
Designed with maintenance in mind	= Components maintained safely and quickly from outside the chute
Supplied with our patented wear indicators	= Clearly identifies when maintenance is required from outside the chute
	= Eliminates hazards of inspecting the belt cleaner while belt is operating
Choice of multiple grades of polyurethane	= Increases life expectancy of polyurethane tip
	= Minimises maintenance costs
	= Optimises performance
Components are interchangeable with most brands	= Cost savings achieved without the need to replace the cleaner
Our components are manufactured from castings with smooth rounded edges	= Ensures uniformity of product
	= Consistent accuracy of product improves serviceability
	= Reduces exposure to potential hand injuries

**Available in natural (SBR) and fire resistant anti-static (FRAS) compounds*

Item Code Standard Tungsten Blades	Item Code FRAS Tungsten Blades	Description	Unit	Overall Length (mm)	Pole Diameter (mm)	Overall Blades Width (mm)	Number of Blades	Weight (kg)
